ILLUMINATION
**PRODUCT**
RECKONER
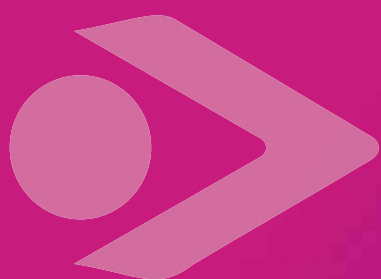

# "Enlightening lives through smart products and sustainable innovations."

Bajaj Electricals Limited (BEL) is a globally renowned and trusted company from the house of Bajaj Group. The core principles of BEL have been manifested from the Gandhian values, set by our founding father, Jamnalal Bajaj. Our current leaders are following this legacy, for 'Inspiring Trust' in our everyday endeavours.

Our businesses consist of world-class lighting products for businesses under our sub-brand Bajaj Illumination, and a range of durable products for consumers (appliances, fans & lighting). In addition, we also have our presence in the premium home appliances and cookware segment, with brands like Morphy Richards and Nirlep.

Apart from work, we also believe in bringing change in the society through philanthropic work. Our Corporate Social Responsibility (CSR) division works on sustainability, gender diversity, employee volunteering and community outreach programmes.
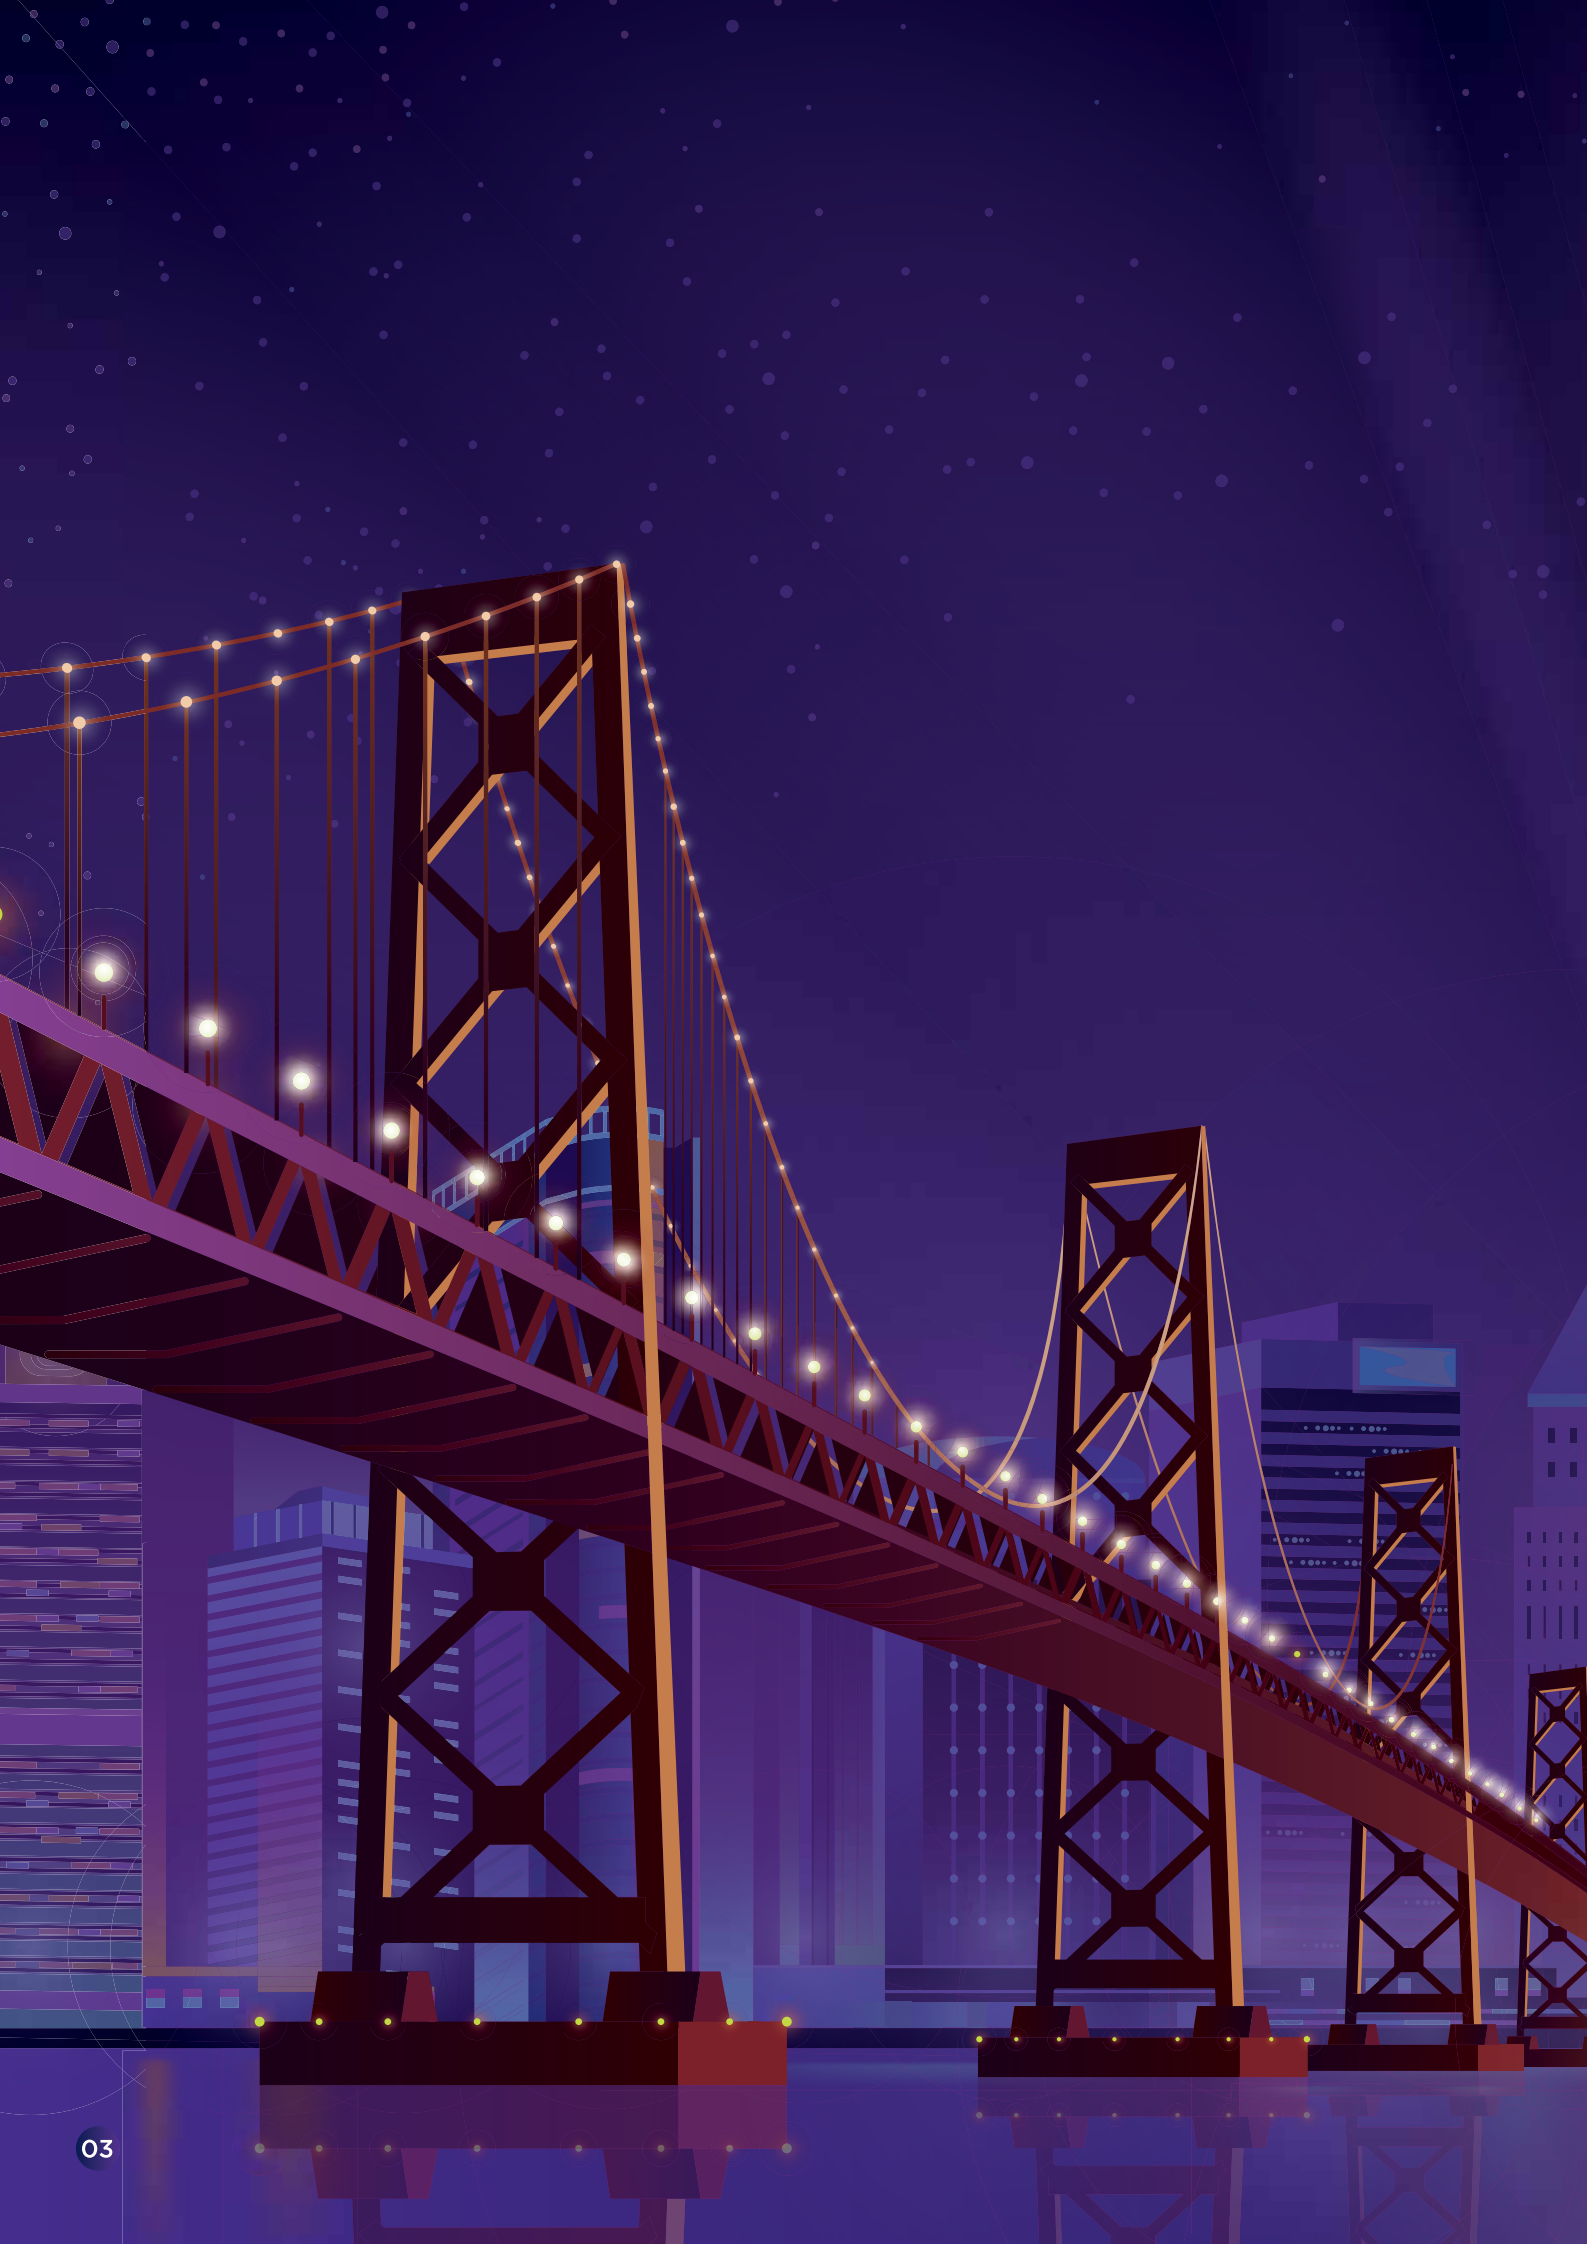

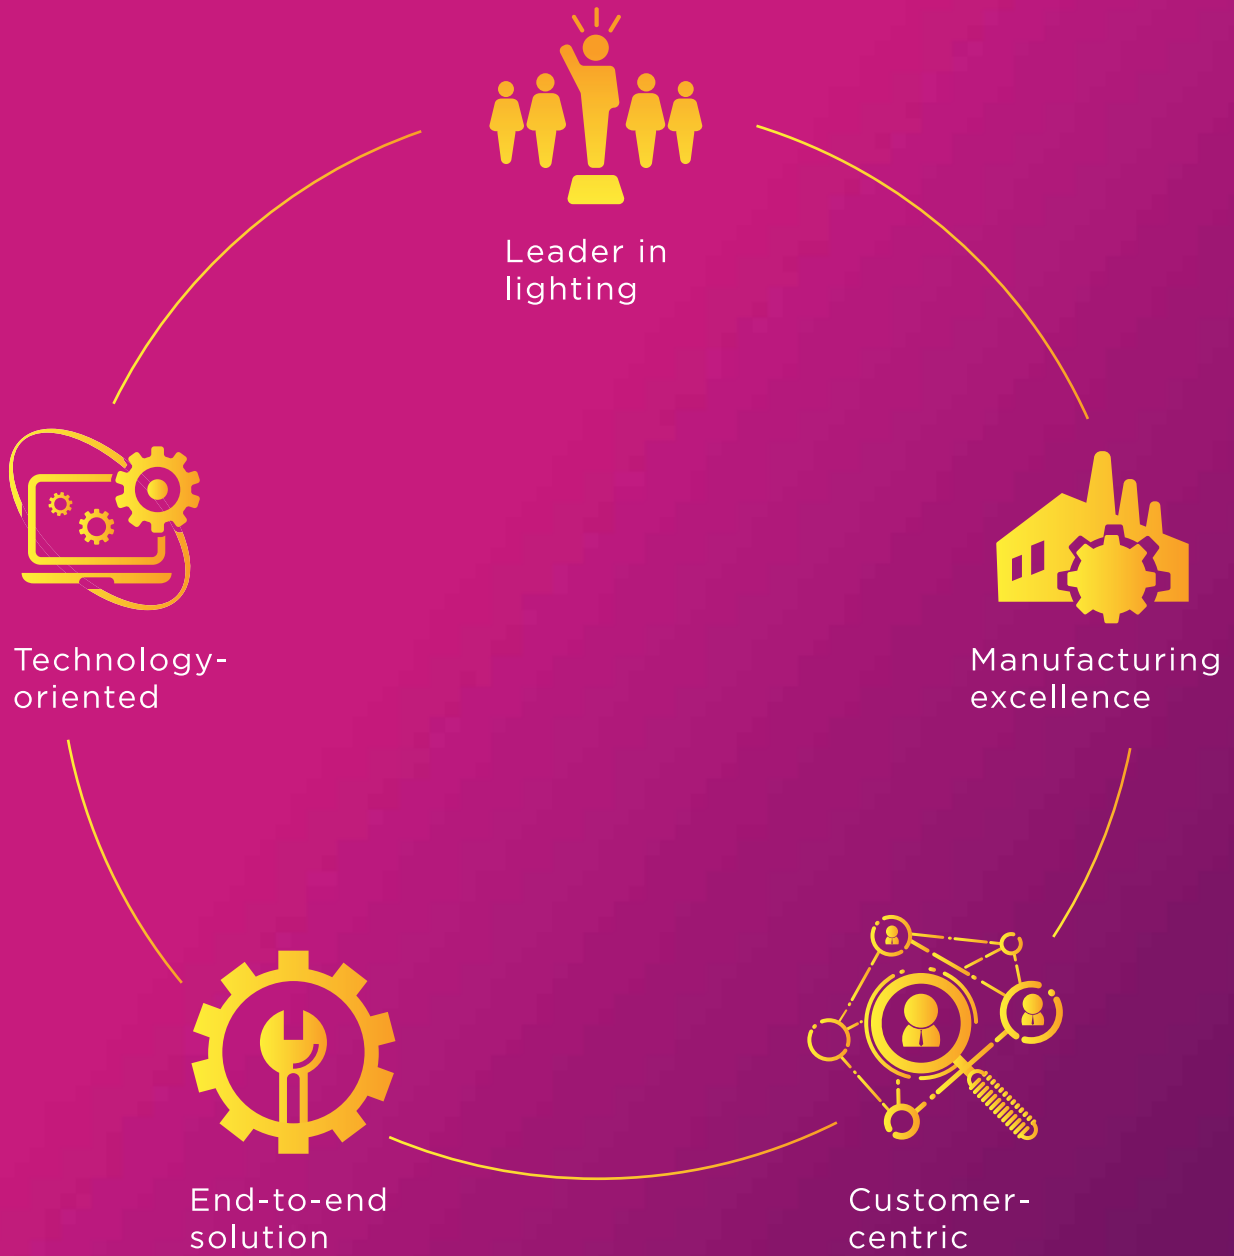

# Illumination Business

With unparalleled expertise of multiple decades, BEL is India's largest provider of complete illumination solutions. Through our indoor-outdoor lighting & infrastructure development business, we wish to enhance the quality of life and bring happiness with sustainability. BEL provides best-in-class energy efficient solutions for development of turnkey infrastructure. Our focus is on continuous upgradation and cloud connectivity through smart technology.

# Our strengths

Leader in lighting

Manufacturing excellence

Customer-centric

End-to-end solution

Technology-oriented

# Bajaj Illumination
## Concept to Care

R&D manufacturing facilities

Complete product basket

Smart & connected solutions

Supply, Installation, Testing & Commissioning (SITC)

Lighting design & engineering service

Complete life cycle management - service & maintenance

# R&D centre
# AB square

With an objective of creating innovative products that offer best solutions to consumers, a modern R&D centre, AB SQUARE, was set up at Navi Mumbai. Our state-of-art laboratory is NABL accredited and have advanced equipment like Photo Goniometer.

AB SQUARE has been given a Platinum status for Leadership in Energy and Environmental Design (LEED) by the United States Green Building Council (USGBC). This certification is given for achieving the highest Green Building Standard for design, operations, and maintenance.

PHOTO GONIOMETER
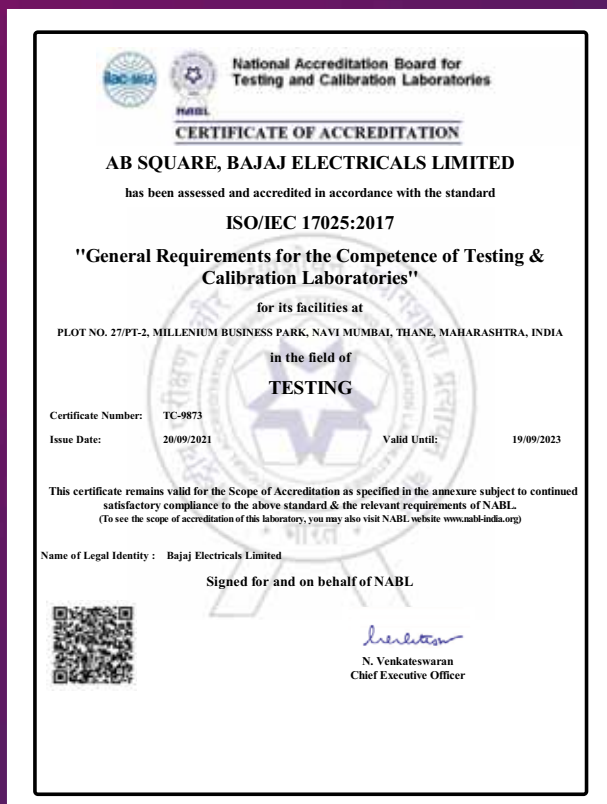

# Smart & connected outdoor lighting

BEL CitiSol is a smart outdoor and connected solutions platform. Keeping the government's mission for creating more smart cities in sight, BEL has come up with an unique system that offers end-to-end smart solutions. The system also has the capability to integrate third-party legacy systems. With strong in-house SITC capabilities, BEL CitiSol will operate and maintain the deployed smart solutions with prompt and effective service, for best customer experience. BEL CitiSol leverages IoT technologies and brings on innovative solutions to the customer's problems. With implementation of this platform, BEL will become one-stop-shop for all smart solutions needs.

# BEL Citisol lighting management solution

## Solution offerings

- Communication protocol agnostic solution
- Efficient operation of street lighting installations
- Remote diagnostics and maintenance of street lighting installations
- Generation of useful metrics for analysis
- Asset mapping with geo-location

# Smart utility pole Solution

Smart utility pole solution comprises of multiple public usage utilities that are mounted on a single pole. All the utilities can be monitored, controlled, and configured from a central location.

This creates a unified approach of providing electrical and connectivity infrastructure to the public with a central utility management system.

Public places like parks, toll plazas, commercial premises, educational institute campuses, government offices have multiple utilities in the form of CCTV cameras, Wi-Fi AP, PA system, and Panic button installed at separate locations with multiple control points. With Smart utility pole solution they all can be unified and centralised for better control and functioning.

# COMMERCIAL LIGHTING

Lighting for commercial spaces like office, hospitality, education, and retail, is not just about functionality but also for overall ambiance and user experience. Lighting is now designed to achieve a complete well-being by providing visual comfort and enhanced attentiveness, thereby improving user productivity. Lighting also aims to improve emotional health by keeping the mood of the user positive.

# COMMERCIAL LIGHTING

## LINEAR LIGHTING SOLUTIONS

**NEW**

# INTEGRATED BUILDING MANAGEMENT SYSTEMS (IBMS)

IBMS is built to integrate smart building platforms like smart lighting, HVAC solutions, fire security & surveillance platforms. It gives access to all these platforms in a single window. Nowadays, manually adhering to multiple protocols is practically impossible for facility managers. Hence, we provide integrated smart solutions to automate these processes. With this system, the users of the IBMS portfolio can get more value for their business and for the people that work or live within these buildings.

# FIRE DETECTION SYSTEM

## ASD - High-precision Aspirating Smoke Detectors

ASD - Aspirating smoke detectors from Securiton are among the most precise and most reliable early warning systems against fires. The SecuriRAS ASD detector series impresses by virtue of its unrivalled capabilities. Developed in Switzerland and manufactured in Germany, the detectors are particularly reliable and robust. Thanks to their sophisticated detection technology, they can detect incipient fires immediately.
Applications: High-bay and deepfreeze warehouses, large data centres, historic buildings, large/high halls, Elevator shafts, museums, collections of cultural artefacts, halls, data centres, cinemas, elevator shafts, prison cells, clean rooms, laboratories, IT racks, telecommunications facilities, etc.

| MODEL | CHANNELS | SMOKE LEVEL INDICATOR | MONITORING AREA | MRP(₹) |
|---|---|---|---|---|
| ASD 535-1 / ASD 535-3 | 1 | Optional (Version -3) | 2835 m2 | 1,67,940 |
| ASD 535-2 / ASD 535-4 | 2 | Optional (Version -4) | 5670 m2 | 2,67,300 |
| ASD 533 | 1 | No | 1920 m2 | 1,47,240 |
| ASD 532 | 1 | Series | 1280 m2 | 1,28,420 |
| ASD 531 | 1 | No | 720 m2 | 89,650 |

## ADW - Securisens Adw 535 Line-type Heat Detector

ADW - The SecuriSens ADW 535 comes into its own where conventional fire detectors reach their physical limits. It copes well with both extreme temperatures and constantly high atmospheric humidity, whilst precise measurements are also possible when corrosive gases and contaminated air are present. The line-type heat detector comes with an intelligent signal evaluation, which offers a perfect combination of state-of-the-art sensors, processors and programming expertise. The result is effective fire protection with a minimum of effort.
Applications: tunnels, underground garages, industrial kitchens, large commercial bakeries, alcohol processing, refineries, oil tanks, waste incineration plants, loading platforms (flying roofs), historical bridges, fuel warehouses, paint shops, steel plants,  gas turbines, engine test benches and many other applications, e. g. under-floor monitoring in rolling stock, marine applications, etc

| MODEL | CHANNELS | SMOKE LEVEL INDICATOR | MONITORING AREA | MRP(₹) |
|---|---|---|---|---|
| ADW 535-1 | 1 | 1 (green) operation, 1 (red) alarm, 1 (yellow) fault | 115 m | 1,48,900 |
| ADW 535-2 | 2 | | 2 x 115 m | 2,24,900 |

# BUILDING MANAGEMENT SYSTEM

## ENTELI TOUCH (Touch Screen Interface)

eTCH-7E-The enteli TOUCH (eTCH-7E) is a 7-inch diagonal, high-resolution widescreen format, colour LCD, used for interfacing with the Delta Controls Building Automation System. It uses BACnet® to communicate with controllers on a local area network, and across the Internet. it is used for monitoring and setting schedules for air handlers, boilers, chillers and other mechanical equipment.

| MODEL | APPROVALS | MRP(₹) |
|---|---|---|
| eTCH-7ET | UL 916, BACnet Building Controller (B-BC), BACnet Operator Display (B-OD) | 1,25,590 |
| eTCH-7ETO | | 1,55,280 |

## O3-DIN Room Control (Integrated Room Control)

The port is the primary integration engine, containing memory, storage, and external communication sports. The O3-DIN-CPU controller has 3 NET ports and 3 power outputs and excels at control of multiple rooms. The O3-DIN-SRC controller has 2 NET ports and 1 power output and excels at single room control.

| MODEL | APPROVALS | MRP(₹) |
|---|---|---|
| O3-DIN-CPU | C-UL Listed, UL 916 Listed and BACnet | 42,180 |
| O3-DIN-SRC | Building Controller (B-BC) | 35,280 |

## ACCESS MODULE

The O3-DIN-ACCESS module provides fully programmable door access control and a combination of universal and door-specific I/O points.
The O3-DIN controller holds the access user database (up to 100,000 records) and provides access granted/denied decision-making intelligence. It also provides the communications network interface to the facility BACnet network and the front-end computer.

| MODEL | APPROVALS | MRP(₹) |
|---|---|---|
| O3-DIN-ACCESS | C-UL Listed, UL 916 Listed<br>UL 294 Listed | 23,450 |

## DALI MODULE

The O3-DIN-DALI gateway module allows the O3 to communicate with DALI® (Digital Addressable Lighting Interface) lighting groups and can control up to 64 dimmable ballasts or LED drivers. Designed for in-ceiling mounting, control is situated close to devices and results in more efficient wire runs.

| MODEL | APPROVALS | MRP(₹) |
|---|---|---|
| O3-DIN-DALI | C-UL Listed<br>UL 916 Listed | 21,950 |

## STANDARD MOTOR INTERFACE MODULE

The O3-DIN-SMI gateway module allows the controller to communicate with SMI (Standard Motor Interface) motors controlling motorized blinds and shades.
A single O3-DIN-SMI can manage up to 16 SMI drives and integrate up to 16 groups.

| MODEL | APPROVALS | MRP(₹) |
|---|---|---|
| O3-DIN-SMI | | 2,1950 |

## I/O MODULES

The O3-DIN-8xP universal I/O module comes with 8 universal points that can be configured as inputs or outputs to control or read from field equipment.
The O3-DIN-4F4xP comes with 4 universal points as well as 4 binary FET outputs for driving high-current relay coils and switching AC or DC power. In a lighting controller application, a single O3-DIN-4F4xP module can drive 2 bi-stable relays, power 0–10 V dimming ballasts, and provide input points for sensors or switches.

| MODEL | APPROVALS | MRP(₹) |
|---|---|---|
| O3-DIN-8xP | C-UL Listed, UL 916 Listed, UL 294 Listed | 23,550 |
| O3-DIN-4F4xP | C-UL Listed, UL 916 Listed | 19,990 |

## POE MODULE
The O3-DIN-PoE module adds Power over Ethernet (PoE) capabilities, providing not only lighting control over PoE but also HVAC and integration.

| MODEL | APPROVALS | MRP(₹) |
|---|---|---|
| O3-DIN-PoE | C-UL Listed, UL 916 Listed | 16,750 |

## POWER INJECTOR MODULE
The O3-DIN-PWRINJ power injector expands the number of O3-DIN modules that can be controlled by a single O3-DIN-CPU and distributes I/O closer to where it is needed. Up to 8 power injectors can be connected to an O3-DIN-CPU controller's O3BUS network with each power injector supporting up to 4 I/O or gateway modules. The additional modules can be located up to 70 m (230 ft) away from the controller.

| MODEL | APPROVALS | MRP(₹) |
|---|---|---|
| O3-DIN-PWRINJ | C-UL Listed, UL 916 Listed, UL 294 Listed | 14,750 |

## O3 SENSOR HUB
The ceiling-mounted O3 Hub sensor hub replaces multiple room sensors with a one-per-room competitive cost solution when installed together with an O3-DIN room controller. Combining humidity, composite temperature, passive infrared motion and light sensors in a single device, the sensor hub provides occupant- and location-based control for the modern office or meeting space. Models equipped with EnOcean radios (868 MHz and 902 MHz) are also available.

| MODEL | APPROVALS | MRP(₹) |
|---|---|---|
| O3-HUB-00 | | 29,800 |
| O3-HUB-02-E8 | cULus 916 Listed | 38,940 |
| O3-HUB-02-E9 | | 38,940 |

## ENTELIWEB SOFTWARE
enteliWEB is a web-based application that connects facilities and centralizes building management operation, site engineering, and energy analytics. When used with O3-DIN controllers and modules, enteliWEB also provides services that define and co-ordinate rooms in a building.

| MODEL | APPROVALS | MRP(₹) |
|---|---|---|
| enteliWEB - 200 | enteliWEB supports electronic record regulations | |
| enteliWEB - 500 | like FDA Code of Regulations Title 21 Part 11 by enforcing | |
| enteliWEB - 1000 | electronic signatures on modifications made in these | On request |
| enteliWEB - 2500 | validated environments. Signatures are recorded in the | |
| enteliWEB - 5000 | enteliWEB audit log. | |

# STREET
# LIGHTING

The primary element of outdoor lighting is street lighting. Its prime focus is to offer highly efficient and connected street lighting solutions. Providing safer outdoor spaces for citizens, it also contributes to the best possible lighting of the roads for driving. Having completed more than ten smart city outdoor lighting projects, we are pleased to be a part of The National Campaign committed to ensuring that the citizens of our country live in smart, sustainable and future-ready cities.

# STREET LIGHT

# AREA
# LIGHTING

When it comes to lighting large outdoor places, we provide the ideal lighting levels that enable movement at night and meet the needs of the application area. Town planners usually apply the area lighting concepts to achieve functional, reliable, durable and highly energy-efficient solutions in various areas like junctions, parking lots and public facilities. The use of area lighting extends to other areas such as yards, ports and sports facilities. We assure desired lighting levels and easy to install smart dimmable solutions.

# SPORTS LIGHTING

# Sports & Stadium Lights
## that make the action come alive

With the lighting of over 100 sports arenas (indoor and outdoor stadiums), Bajaj Illumination possesses the leading position in the arena of sports lighting. Our high-end LED sports floodlight luminaires are designed, developed and manufactured in India. Having a clear understanding of televised and non-televised sports events makes us the most preferred and experienced brand in this segment. Through our strong design and execution teams, we have created landmark sports facilities across the country.

# Amaze Premium
# Redefining sports lighting

With The Bajaj Amaze Premium LED floodlight range developed in India, major sports events can now enjoy flicker-free lighting that meets international standards for HDTV broadcasting. A DMX control is compatible with the unit, allowing it to dim and schedule in real-time and create customized effects. It provides a wide range of combinations of power, lumen, optics, and luminous flux. The Amaze Premium range has modular housing, different beam angles, and wattages. It can be used for canopy and stadium mast installations. The Amaze Premium LED floodlight has a laser device which ensures effortless installation.

# LANDSCAPE LIGHTING

We provide decorative lighting solutions for lightening up marvellous landscapes. These include Bollards, Post Tops, Light Columns, and Decorative Poles. With this wide range of offerings, we have turned parks, gardens, corporate premises landscapes, and townships across the country into landmarks. Amongst these offerings, our decorative range of luminaires and poles are the highlights.

# ARCHITECTURAL LIGHTING

Architectural lighting (a.k.a. façade lighting) enhances the beauty of a monument's architecture with its seamless yet dynamic lighting solutions. In this category, creating the perfect lighting design and simulation is the key to perfect illumination. The smart city managers aim to create nocturnal illuminations for key monuments and important buildings in the city. Because for them, it's another way of attracting tourists to the cities.

# HIGHMAST
# AND POLES

# "Our state-of-the-art manufacturing facilities"

Bajaj High Mast, Poles, and Monopoles are 100% indigenous solutions catering to varied applications for the better development of new infrastructural projects. Designed in our futuristic manufacturing facilities, they are a testament to our commitment to developing products of the highest standard. Each product is carefully crafted to set a new benchmark in the industry and deliver a high level of performance. In addition, the plant where they are manufactured is also certified with ISO 14001, ISO 9001 and ISO 45001 to meet stringent quality standards.

Highmast & Poles manufacturing
facility, Ranjangaon (near Pune in Maharashtra)

# Our manufacturing process

Plazma cutting

# Highmast-raising & lowering mechanism

- Bajaj High Mast lighting system is provided with the necessary raising & lowering mechanism. It also has energy-efficient, single-speed motors connected to the mechanical winch system.

- A suitable door opening is provided at the base to access equipment like winch, motor, cable, plug & socket. The door mechanism is complete with a close-fitted, vandal-resistant, weather-proof material provided with a heavy-duty Allen bolt.

# Octagonal pole & conical pole

## Advantages
- Ease of installation
- Excellent aesthetics
- Higher strength
- Galvanized from outside as well as inside
- Flush door with hidden service connections
- Provision for fixing bakelite sheet is provided
- Vandal resistant
- No recurring painting costs
- Ease of relocation
- No J.B. & GI cable protection pipes are required

# Types of poles

BAJAJ GRP poles are available for various applications and come in various shapes and lengths.

- Cylindrical
- Conical
- Embedded Flange mounted
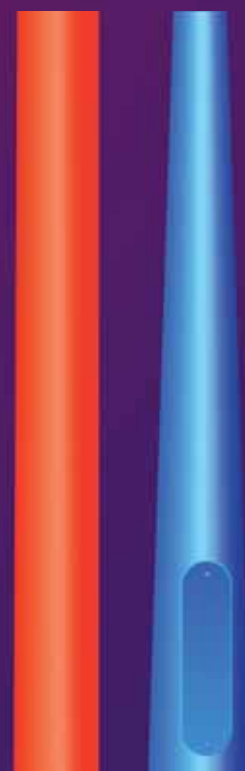

Cylindrical
3-6 mtrs.

Conical
3-12 mtrs.

## Colours

BAJAJ GRP poles are available in a wide range of aesthetically pleasing colour options.

- The material is pre-pigmented & therefore scratch-resistant
- GRP poles are available in white / black / red / orange / green / yellow / blue colours*
- Grey is the standard colour
- The surface finish is UV protected
